Oct 16, 2017 15 Best Android Apps for Grown-Ups Watch the New MOTD Footymad MOTD. An exciting new trick system allows you to perform the classic management move of buying the player from a rival club and making them instantly your.Q: Yii2 - How to create CActiveRecord and save many records via post request I am trying to send list of data by post request and insert them in database by activerecord. The problem is that once i insert them using get request only get, post, put, delete some data saved. So how can i save all data by post request? I have tried it with for loop and save them but it doesn't work \*\*Code\*\* public function actionIndex(\$id) { \$val = [ ['id' => '1', 'val' => '1'], ['id' => '2', 'val' => '2'], ['id' => '3', 'val' => '3'], ['id' => '4', 'val' => '4'], ['id' => '5', 'val' => '5'], ['id' => '6', 'val' => '6'], ['id' => '7', 'val' => '7'], ['id' => '8', 'val' => '8'] ]; for (\$a = 0; \$a < count(\$val); \$a++) { \$detail = \$this->findDetail(\$val[\$a]['id'], \$id); } Yii::\$app->user->setFlash('success', 'Detail '. \$detail->id
